SANDAG

The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

ARRESTS 2015: LAW ENFORCEMENT RESPONSE TO CRIME IN THE SAN DIEGO REGION

INTRODUCTION

The Criminal Justice Research Division of the San Diego Association of Governments (SANDAG) functions as the Clearinghouse for regional criminal justice information. On an annual basis, the Division prepares a report on local criminal justice agencies' response to crime in the region, as measured by arrest statistics. Because arrest statistics include information regarding whether the suspect is an adult or juvenile, and include a greater variety of crime types than are reported in regional crime reports (e.g., alcohol and other drug-related offenses), this information provides an added dimension for understanding the nature of crime and an additional measure that can be used in justice system planning.

This CJ Bulletin includes regional arrest rates per 1,000 for both the adult and juvenile population, as well as numbers of arrests by offense type. In addition, 42 supplemental tables, which include statistics for individual jurisdictions, are presented. Some points to remember when interpreting these numbers include the following:

- Similar to how the FBI counts reported crimes, the offense or charge attributed to an arrest reflects only the most serious out of potentially multiple violations included in the arrest.
- Arrests are documented by the location at which the arrest occurred and cannot be assumed to have any relationship to the location of the crime incident or the residence of the alleged offender.
- Arrest and crime rates and numbers should not be compared to one another. One reason is that the two events may occur in two entirely different periods of time, with an arrest made months or even years after the related crime was reported.

HIGHLIGHTS

- 2015 represented the first full calendar year of arrest statistics since the passage of Proposition 47, which reduced certain property and drug offenses from felonies to misdemeanors. This change was evident in recent statistics with a 37 percent drop in adult felony-level property crime arrests and 62 percent drop in adult felony alcohol/drug arrests.
- The juvenile arrest rate continued to decline in 2015, reaching a historic low of 19.4 per 1,000 population, a decrease of 63 percent from ten years ago (52.1).
- While arrests for misdemeanor-level driving under the influence continued to decrease in 2015, arrests at the felony level increased by 27 percent from 2014.
- Adult arrests in the "other" category of offenses increased by 8 percent overall, with one of the greatest increases at the misdemeanor level for failure to appear (20%) – another change that could be related to the passage of Proposition 47.
- The only arrest category to increase for juveniles from 2014 to 2015 was weapons, which went up by 2 percent. Arrests for adults in this category also went up by 7 percent.
- Other large one-year changes included adult arrests for rape decreasing by 22 percent and for motor vehicle theft increasing by 16 percent.
- In 2015, the most common arrest reason for adults was misdemeanor other drug, and for juveniles it was misdemeanor petty theft.
- Compared to the other four largest California counties, San Diego had the second highest arrest rate for both adults and juveniles, following only San Bernardino.

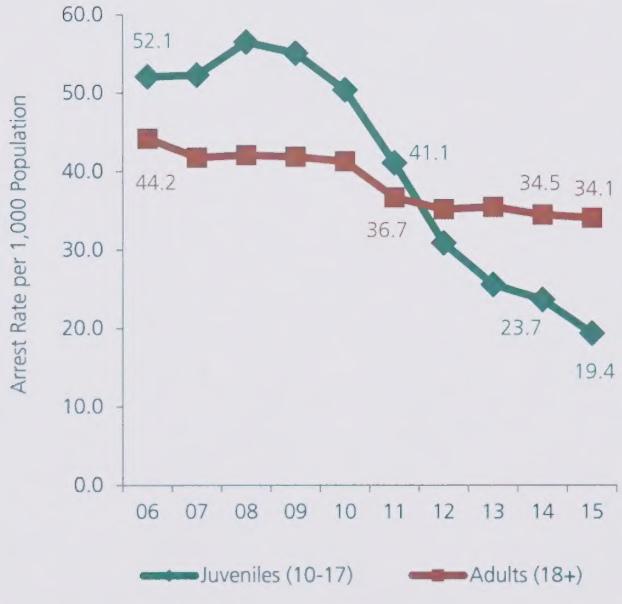
ARREST RATES

Trends

In 2015, there were 34.1 adults arrested per 1,000 population. As Figure 1 shows, this rate represented a slight decrease (-1%) from 2014, and was 7 percent lower than it was five years earlier (when it was 36.8). Across the jurisdictions, the adult arrest rate varied from 15.7 to 57.2 in 2015, with one-year increases in 11 of the jurisdictions and decreases in the other 8 (Table 6).

Until 2012, the arrest rate was traditionally higher for juveniles than adults, but this reversed in 2012, with the pattern continuing the past three years. As Figure 1 shows, the 2015 juvenile arrest rate of 19.4 represented a decrease of 18 percent from 2014 and was 53 percent lower than it was in 2011. Across the jurisdictions, the juvenile arrest rate varied from 3.5 to 63.6 in 2015, with 14 of the agencies reporting one-year decreases, 2 agencies one-year increases, and for 3, the number of arrests was too small to compare (Table 9).

FIGURE 1
ARREST RATES FOR JUVENILES CONTINUE TO DECREASE IN 2015



SOURCES: California Department of Justice; SANDAG.

Felonies and Misdemeanors

When examining arrest rates for adults by the severity of the highest charge, felonies were down 28 percent in 2015 (from 2014), and misdemeanors were up 13 percent (Tables 7 and 8). Across the jurisdictions, the number of adult felony arrests was down in 17 of the 19 jurisdictions, with decreases ranging from 6 percent to 40 percent; one jurisdiction had no change and the numbers were too small to compare in another. At the misdemeanor level, 2 jurisdictions reported fewer adult arrests in 2015, compared to 2014, but the other 17 all reported increases, ranging from <1 percent to 63 percent. For juveniles, both felony and misdemeanor rates dropped from 2014 to 2015 (-29% for felonies and -15% for misdemeanors) (Tables 10 and 11).

WHAT IS PROPOSITION 47 AND HOW COULD ITS IMPLEMENTATION POSSIBLY AFFECT THE ARREST RATES AND NUMBERS REPORTED HERE?

On November 5, 2014, California voters passed Proposition 47, which reduced simple possession of drugs and many theft crimes to misdemeanors. As such, the arrest data reported here reflect the first full year of data post-Prop 47. As described in later sections of this bulletin, this change appears to be reflected in a number of ways in the arrest statistics, with large one-year decreases in the number of felony-level burglary (-59%) and larceny (-20%) arrests, and increases in misdemeanor-level petty theft/burglary (34%); however, it is interesting to note the drop in felony-level arrests for these two categories combined was larger (-47%) than the 34 percent increase in misdemeanor-level arrests. For drug-related offenses, there were double-digit decreases over the year in the number of felony-level adult arrests for narcotics (-73%), dangerous drugs (-66%), and marijuana (-40%), and an almost equal increase in the number of misdemeanor-level arrests for marijuana (35%) and other drug-related offenses (74%). In addition, it is possible that the 20 percent increase in the number of adults arrested for failing to appear could be related in part to individuals cited for offenses and not arrested, who later failed to appear in court as required.

Arrestee Race and Age

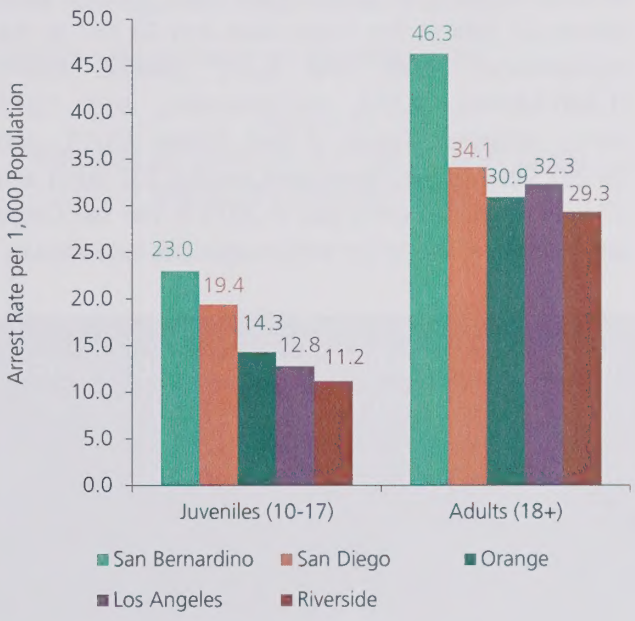
Arrest rates also varied by race/ethnicity for both adults and juveniles, with individuals of "other" races/ethnicities having the lowest rate (14.4), while Blacks had the highest rate (116.6). Over the past year, the arrest rate decreased for Hispanics (-6%), those of "other" race/ethnicities (-3%), and Blacks (-2%), but there was no change for Whites (Table 2A).

Arrest data by age was available in 2015 and showed that in this most recent year, adults between 20 and 29 had the highest arrest rate (58.1), followed by those 30 to 39 (46.5), 18 and 19 (39.5), and 40 to 69 (26.0). It is interesting to note that in 2011, those 18 and 19 had the highest arrest rate of any of the age groups and that over the past five years, the arrest rate for this group decreased 44 percent, but the arrest rate for those 30 to 39 increased 9 percent (Table 2B).

SAN DIEGO COMPARED TO OTHER CALIFORNIA COUNTIES

In 2015, San Diego County had an adult arrest rate (34.1) that was lower than the State's (36.9), but a juvenile arrest rate that was higher (19.4 versus 17.6). Compared to the other largest California counties, San Diego had the second highest adult and juvenile arrest rates, following only San Bernardino. For adults, all of the other large counties had decreases in their adult arrest rate (ranging from -1% to -12%), except for Orange, which increased 8 percent. For juveniles, all of the four other counties had one-year decreases, ranging from -2 percent in San Bernardino to -27 percent in Orange (Figure 2 and Table 5).

Figure 2
SAN DIEGO COUNTY HAD SECOND HIGHEST JUVENILE AND ADULT ARREST RATES IN 2015 COMPARED TO OTHER LARGE CALIFORNIA COUNTIES



SOURCES: California Department of Justice; SANDAG.

WHAT WERE ADULTS IN SAN DIEGO COUNTY MOST FREQUENTLY ARRESTED FOR IN 2015?

- Misdemeanor Other Drug Offenses (235/week)
- Misdemeanor Driving Under the Influence (194/week)
- Misdemeanor Drunk (160/week)
- Felony Aggravated Assault (132/week)
- Misdemeanor Petty Theft (124/week)

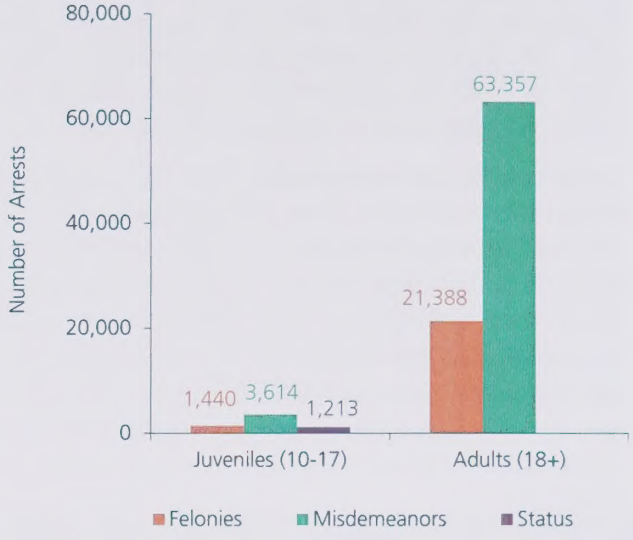
NUMBER OF ADULT AND JUVENILE ARRESTS

Even though juveniles have historically had a higher arrest rate per 1,000 population compared to adults, it is important to note that many more adults are actually arrested. In 2015, there were 84,745 adult arrests (21,388 at the felony level and 63,357 at the misdemeanor level), and 6,267 juvenile arrests (1,440 felonies, 3,614 misdemeanors, and 1,213 status offenses) (Figure 3 and Tables 13-15, and 26-28). On average, there were around 232 adult and 17 juvenile arrests every day in 2015 in the San Diego region by local law enforcement agencies (not shown).

WHAT WERE JUVENILES IN SAN DIEGO COUNTY MOST FREQUENTLY ARRESTED FOR IN 2015?

- Misdemeanor Petty Theft/Burglary (17/week)
- Curfew Violations (15/week)
- Misdemeanor Assault and Battery (13/week)
- Misdemeanor "Other" (12/week)
- Felony Aggravated Assault (7/week)

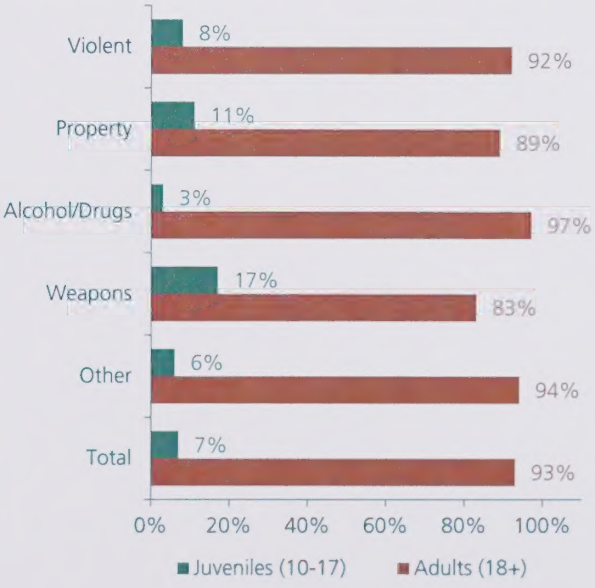
Figure 3
IN 2015, THERE WERE ALMOST 3 ADULT MISDEMEANOR ARRESTS FOR EVERY 1 ADULT FELONY ARREST



SOURCES: California Department of Justice; SANDAG.

As Figure 4 shows, while 7 percent of all arrests in 2015 were of juveniles, there was variation by crime type; with juveniles representing a greater proportion of arrests for weapons (17%) and property (11%) offenses, and a smaller proportion of arrests for alcohol- and other drug-related offenses (3%).

Figure 4
JUVENILES REPRESENT HIGHER PROPORTION OF ARRESTS FOR WEAPONS AND PROPERTY OFFENSES COMPARED TO OTHER ARREST TYPES



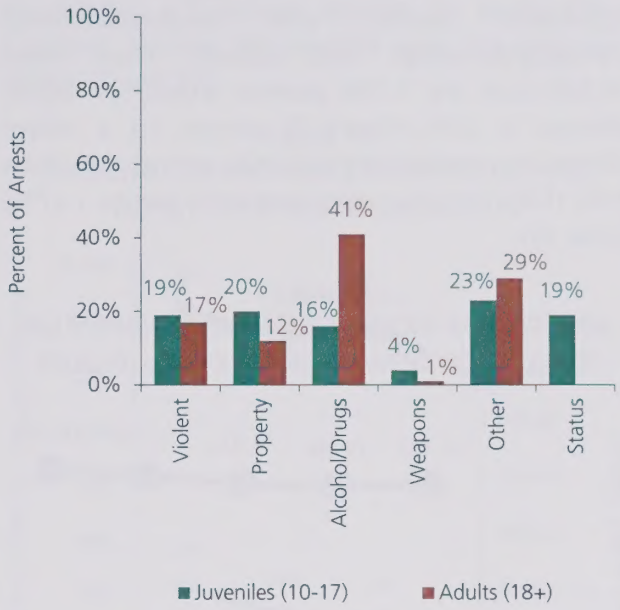
SOURCES: California Department of Justice; SANDAG.

ARRESTS BY OFFENSE TYPE

What types of crimes are adults and juveniles arrested for? As Figure 5 shows, around two in five (41%) adult arrests were for an alcohol/drug offense and 29 percent for crimes categorized as "Other". In comparison, the distribution across crime type varied more for juveniles, with the most common being other offenses (23%) and the least common being weapons offenses (4%).

There also was variation across the arrest categories in terms of what percent represented offenses at the felony versus misdemeanor level. As Figure 6 shows, while four-fifths or more of juvenile and adult arrests for weapons offenses were at the felony level (81% and 79%, respectively), a much smaller percent were felonies in the alcohol/drug (11% and 10%) and "other" (18% and 23%) offense categories. Since Proposition 47 went into effect, the proportion of drug (25% of adult arrests in this category in 2014, compared to 10% in 2015) and property offenses (52% to 34%) at the felony level has declined (not shown).

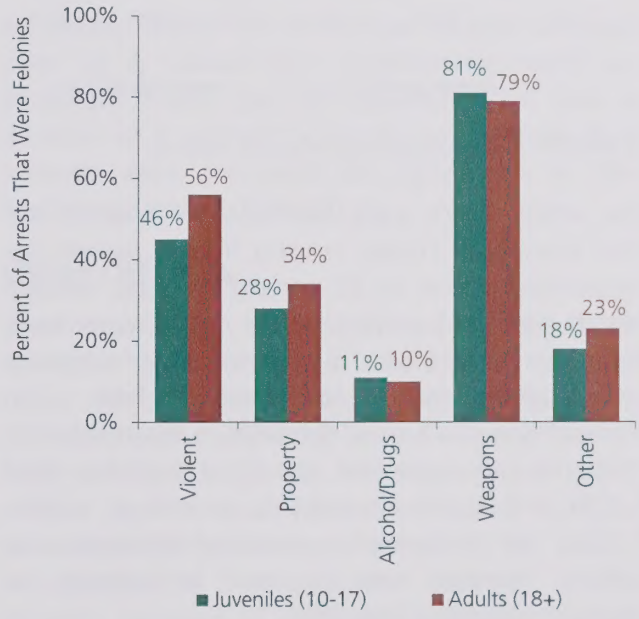
Figure 5
COMPARED TO JUVENILES, ADULTS MORE LIKELY TO BE ARRESTED FOR ALCOHOL/DRUG OFFENSES



NOTE: Percentages may not equal 100 due to rounding.

SOURCES: California Department of Justice; SANDAG.

Figure 6
PERCENT OF ARRESTS AT THE FELONY LEVEL VARIES BY OFFENSE TYPE

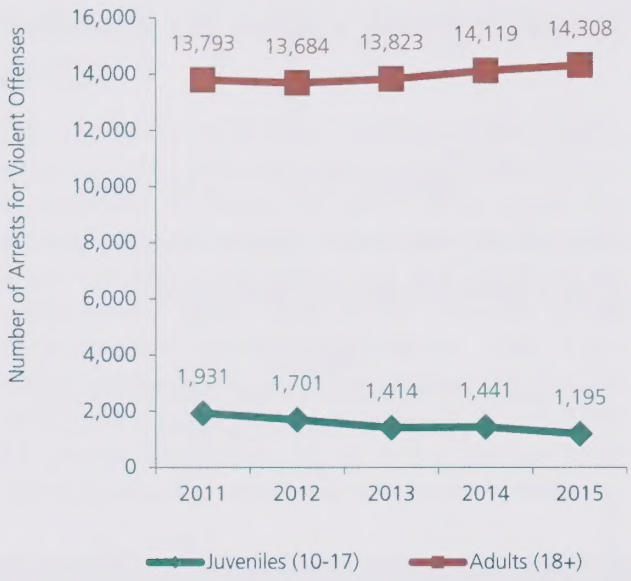


SOURCES: California Department of Justice; SANDAG.

Violent Offenses

The violent offense arrest category includes four felony-level offenses: homicide, rape, robbery, and aggravated assault; and misdemeanor-level manslaughter/assault and battery. There were 14,308 adult and 1,195 juvenile arrests for violent offenses in 2015 (Figure 7). Arrests for a violent offense increased slightly over the past year for adults (1%) (Table 20), but decreased for juveniles (-17%) (Table 33).

Figure 7
ARRESTS FOR VIOLENT OFFENSES SLIGHTLY UP FOR ADULTS, DOWN FOR JUVENILES, IN 2015



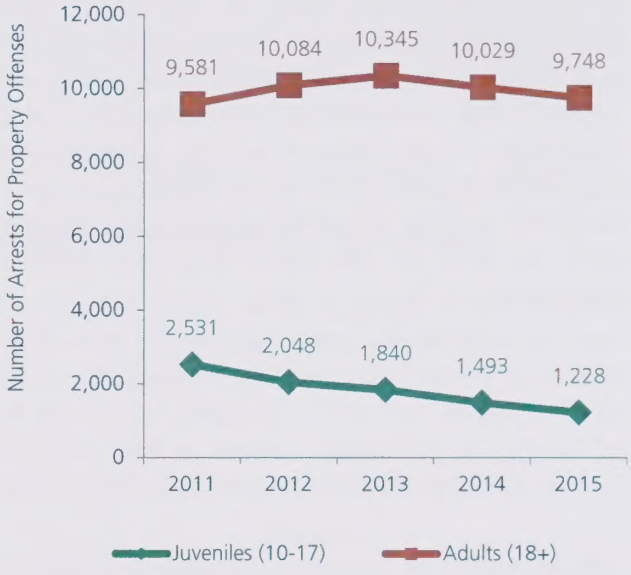
SOURCES: California Department of Justice; SANDAG.

For adults, there were decreases in three of the four felony-level crimes, ranging from 1 percent for aggravated assault to 22 percent for rape; robbery arrests were up 5 percent. At the misdemeanor level, there was an increase of 5 percent for the number of manslaughter/assault and battery (Table 21). For juveniles, there were decreases in the number of robberies and aggravated assaults at the felony-level (-30% and -14%, respectively), as well as a drop (-15%) for misdemeanor manslaughter/assault and battery. Numbers were too small to compare for homicide and rape (Table 34).

Property Offenses

Property offenses include felony-level burglary, larceny, motor vehicle theft, and misdemeanor-level petty theft/burglary. In 2015, there were 9,748 adult arrests for a property offense, which represented a 3 percent decrease from 2014 (Figure 8 and Table 20). For juveniles, the number of arrests for a property crime dropped to 1,228, a one-year decrease of 18 percent from 2014 (Table 33).

Figure 8
ARRESTS FOR PROPERTY OFFENSES DOWN FOR ADULTS AND JUVENILES IN 2015



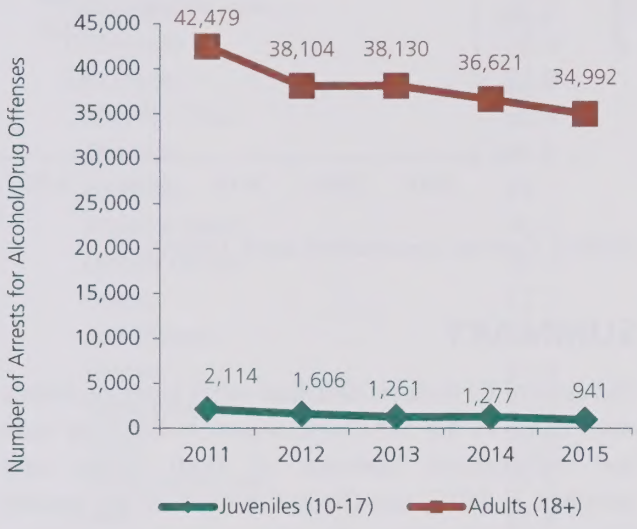
SOURCES: California Department of Justice; SANDAG.

Across the felony property categories, for adults, there was a 37 percent drop overall, which was driven by 59 percent drop in felony-level burglary and a 20 percent drop in larceny, but offset slightly by a 16 percent increase in arrests for motor vehicle thefts. At the same time, there was a 34 percent increase in misdemeanor-level property crime arrests (Table 22). For juveniles, there were double-digit decreases across each of the three felony-level categories (-48% overall) and misdemeanor-level petty theft/burglary increased 5 percent (Table 35).

Alcohol- and Other Drug-Related Offenses

In 2015, there were 34,992 adult and 941 juvenile arrests for alcohol- and other drug-related offenses (Figure 9). For adults, this represented a decrease of 4 percent from 2014 and for juveniles it was a decrease of 26 percent (Tables 20 and 33).

Figure 9
ADULT AND JUVENILE ARRESTS FOR ALCOHOL- AND OTHER DRUG-RELATED OFFENSES DOWN IN 2015



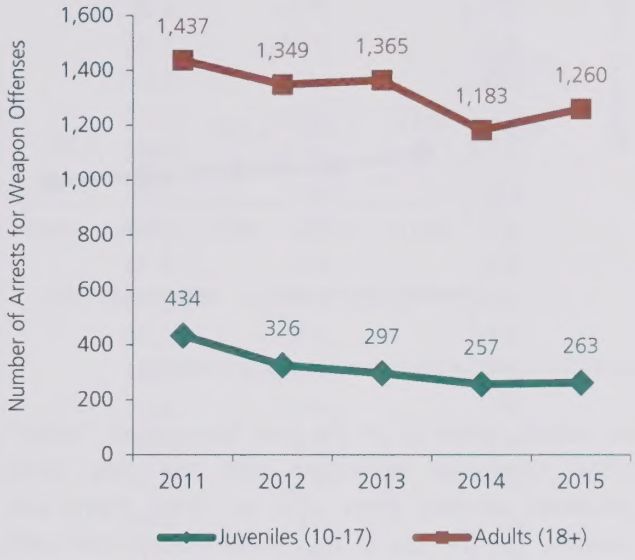
SOURCES: California Department of Justice; SANDAG.

Within the alcohol- and drug-related offense category are five felony and five misdemeanor categories. For adults, there were one-year declines for four of the five felony categories, ranging from 8 percent for other drug offenses (which includes illegal use of prescription drugs) to 73 percent for narcotics (which includes heroin and cocaine/crack); the overall decrease for felony-level crimes was 62 percent. The one exception for adults in the felony category was driving under the influence arrests, which increased 27 percent. At the misdemeanor level, three crimes had one year increases: liquor laws (5%), marijuana (35%), and other drug offenses (74%); the other two crimes at the misdemeanor level declined for adults (-6% for driving under the influence and -7% drunk in public) (Table 23). For juveniles, there were decreases in all six of the alcohol- and drug-related charges (with enough numbers for comparison), which ranged from 15 percent for misdemeanor-level other drug offenses to 62 percent for felony-level dangerous drugs (Table 36).

Weapons Offenses

There were 1,260 adult arrests and 263 juvenile arrests for weapons violations in 2015 (Figure 10), representing a 7 percent increase for adults and a 2 percent increase for juveniles over the past year (Tables 20 and 33).

Figure 10
ARRESTS FOR WEAPONS OFFENSES UP FOR ADULTS AND JUVENILES IN 2015



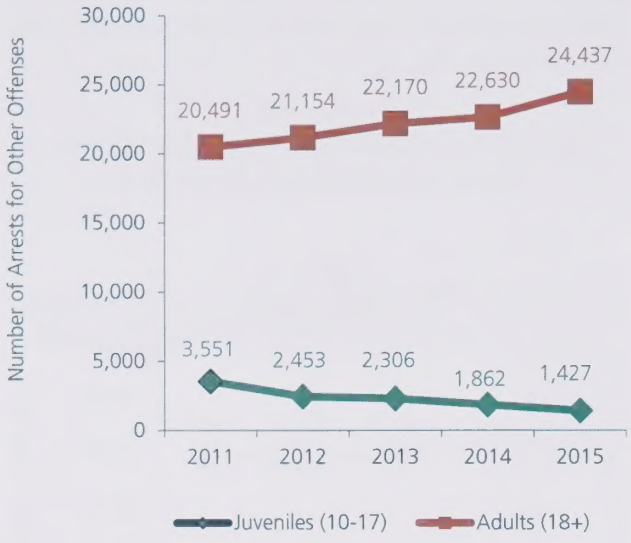
SOURCES: California Department of Justice; SANDAG.

For adults, arrests for felony-level weapon offenses were up 2 percent and misdemeanors were up 26 percent (Table 24). For juveniles, there was a decrease of 7 percent for felony-level offenses (but numbers were too small for comparison at the misdemeanor level) (Table 37).

Other Offenses

There were 24,437 adult arrests and 1,427 juvenile arrests for "other" offenses in 2015 (Figure 11). At the felony level, "other" charges include sex-related offenses, forgery, and arson, as well as other felonies (such as kidnapping). At the misdemeanor level, offense types include other theft-related charges, sex-related and prostitution, disturbing the peace, vandalism/graffiti, hit-and-run, selected traffic offenses, violations of city/county ordinances, failure to appear in court offenses, and other charges such as contributing to the delinquency of a minor. Over the past year, there was an 8 percent increase in other offense arrests for adults, but a 23 percent decrease for juveniles (Tables 20 and 33).

Figure 11
NUMBER OF ARRESTS FOR OTHER OFFENSES UP FOR ADULTS, DOWN FOR JUVENILES



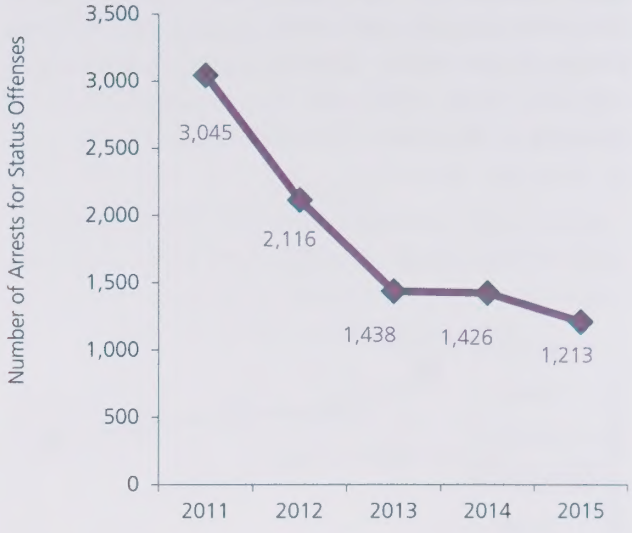
SOURCES: California Department of Justice; SANDAG.

For adults, while all of the four felony-level "other" crime categories decreased over the year (with decreases ranging from -2% to -9%), there was variation for the ten at the misdemeanor level with three decreasing and seven increasing. The two misdemeanor-level offenses that increased the most included failure to appear (20%) and other misdemeanors (26%) (Table 25). For juveniles, there were decreases in all five of the categories with enough numbers for comparisons, ranging from 8 percent to 41 percent (Table 38).

Status Offenses

As Figure 12 shows, there were 1,213 status offense arrests in 2015, which represented a 15 percent decrease from 2014.[1] Arrests for curfew violations dropped by 20 percent (Table 39).

Figure 12
NUMBER OF STATUS OFFENSE ARRESTS CONTINUED TO DECREASE IN 2015



SOURCES: California Department of Justice; SANDAG.

SUMMARY

The current CJ Bulletin describes what types of arrests were made in the San Diego region in 2015 by local law enforcement agencies of both adults and juveniles. In 2015, San Diego County had the second highest adult and juvenile arrest rates, compared to the other most populated counties in the State. For adults, the most noteworthy changes included large reductions in the number of felony-level property and drug-related arrests, and increases in arrests for these types of offenses at the misdemeanor level. In addition, there also were double-digit increases in the number of felony-level arrests for driving under the influence and motor vehicle theft, as well as misdemeanor-level failing to appear. The juvenile arrest rate continued its pattern of decline, with drops for felonies, misdemeanors, as well as status offenses. The one exception was for weapon-related offenses, which also increased for adults.

[1] In 2013 and 2014, the State reported no runaway arrests for any agency in San Diego County, but further investigation revealed that this is not consistent with follow-up data inquiries to individual agencies. As such, it is important to note that the number of status offense arrests in 2013 and 2014 may be somewhat higher than what is reported here and in other arrest statistics from the State.

Total	**3,045**	**1,426**	**1,213**	**-60%**	**-15%**

NOTES: Variations in emphasis or focus on individual status offenses by law enforcement and prosecution agencies impact the number of arrests/juvenile contacts. "Other" status offenses include incorrigible behavior (such as failure to comply with parental authority), failure to obey orders of the Juvenile Court (such as community service and fines), and running away from court-ordered placement. In 2013 and 2014, the State of California reported no runaway arrests for any agency in San Diego County. However, further investigation revealed that this is not consistent with follow-up inquiries to individual agencies. As such, it is important to note that the number of status offense arrests in 2014 may be somewhat higher than what is reported here and in other arrest statistics from the State of California.
